

Complete Earthly Woman

You are being told the *one* secret available to *all* women

We all long to know ourselves, accept ourselves and believe in ourselves *completely* and without doubt. This book holds the secret to that shining inner beauty that is your very birthright as a woman. Now *you* can claim that boundless knowledge, wisdom, inner peace, strength, joy, and love of your female self.

This is not about changing anything or adding more to your already busy life. It's about calling on an ancient truth living deep within you right now. There is nothing to study, nothing to "work on" later. By simply reading these pages you connect with the healing spirit of your Complete Earthly Woman in the easiest and most natural way possible.

You can use this secret anywhere—standing in line at the grocery store or sitting in a boardroom. Whether you are single or married, just starting a career or looking for a higher path, this book awakens you to who you truly are and where you want to be, moment by moment and breath by breath.

"A wonderfully written document of interpreting the earthly, feminine healing energies."
